

MOTION BY SUPERVISOR DON KNABE

June 23, 2014

The CEO Office of Emergency Management has requested four new positions to help meet their critical service. This request provides an opportunity to look at the mission of this CEO division on a broader scale in order to determine where best these services should be housed within the county government structure. Housing this unit within the County Fire Department may prove to be a better organizational fit.

I, THEREFORE, MOVE that the Board of Supervisors instruct the CEO to report back during the September budget meeting with a recommendation to move the Office of Emergency Management division to the County Fire Department.
